QUALITY & SOURCING

Quality is central to our operations. Our sourcing and handling processes align with internationally recognized standards, including

Once harvested, every batch is rigorously inspected and graded by our agricultural experts using advanced sorting technology. We evaluate size, color, integrity, and nutritional value, immediately filtering out subpar produce. This strict vetting process ensures only the highest-tier goods are cleared for export.

PACKAGING & LOGISTICS :-

Export-grade packaging designed for air and sea freight with focus on freshness retention and transit safety. Custom packaging available based on buyer requirements

BUSINESS APPROACH

Transparency & Sourcing

We source directly through a curated Indian farmer network, ensuring complete traceability and seasonal optimization from farm to market

Consistency & Quality

Every batch undergoes strict grading and quality control to meet export standards, supported by key certifications (IEC, FSSAI, APEDA)

Reliable Execution

We ensure supply continuity through proactive order planning, export-ready packaging for air and sea freight, and flexible buyer customization
